Looking for opportunities to fund your research? Please take a few minutes to review the following information.

If a funding opportunity you are interested in is designated as a limited submission program, please contact ORED prior to developing an application. For more information on the limited submission process http://sites01.lsu.edu/wp/ored/funding-resources/limited-submissions/.

---

**Program Announcements**

**Distinguished Research Master Program**
Nominations can be submitted by clicking here.

**Rainmaker Program**
Nominations can be submitted by clicking here.

**2014 Fall ORED Workshop Registration link:**
http://sites01.lsu.edu/wp/ored/ored-2014-fall-workshop-registration-page/

---

**My NCBI**
NIH has created My NCBI, a tool that retains user information and database preferences to provide customized services for many databases operated by the National Library of Medicine's National Center for Biotechnology Information, including PubMed, PubMed Central, and SciENcv.

---

**NSF Visualization Challenge**
This year, the National Science Foundation has teamed up with Popular Science to bring you our newly renamed science and engineering visualization challenge: The Vizzies. The contest is open to everyone. The deadline to enter is Sept. 30, 2014.

---

**Department of Commerce**
The Ecological Effects of Sea Level Rise Program is soliciting proposals to improve the management of regional and local ecosystems through research on key technologies, natural and nature-based infrastructure, physical and biological processes, and model evaluation. The application deadline is November 18, 2014.
AHA Cardiovascular Genome Phenome Study (CVGPS)
The Cardiovascular Genome Phenome Study (CVGPS) is a collaborative effort, spearheaded by the American Heart Association (AHA), to accelerate the future of cardiovascular medicine. To accomplish the promise of the CVGPS, AHA is offering the Grand Challenge Award at $500,000 for 4 years for a total of $2 million. Please note, the CVGPS Grand Challenge Award application process and timeline have changed from the original RFA. The Letter of Intent is due October 1, 2014. The full application will be due December 2, 2014. See the Letter of Intent Requirements for more information.

EPSCoR Supervised Undergraduate Research Experiences (SURE) RFA
Attached is the Request for Applications (RFA) for the EPSCoR Supervised Undergraduate Research Experiences (SURE) program for 2015. This program provides opportunities for female and underrepresented minority undergraduate students to participate in research with faculty mentors. Students accepted into the program will receive a stipend of $4,000, while the faculty mentor will receive $500 per student for costs associated with the research experience. Applications are due Monday, December 1, 2014. Last day to ask questions is Thursday, November 20, 2014. Please note that the application is to be prepared using the appropriate LOGAN module, instead of completing the application form and submitting it as a PDF file. The application form provided with this RFP is offered only as an example of the application elements that will be required in the module. The SURE module will be available on LOGAN by October 1, 2014.

Peer Reviewed Alzheimer’s Research Program
• Convergence Science Research Award
• Quality of Life Research Award
• Military Risk Factors Research Award
Detailed descriptions of the funding opportunity, evaluation criteria, and submission requirements can be found in the Program Announcement. The Program Announcement is available electronically for downloading from the Grants.gov website (http://www.grants.gov), the CDMRP website (http://cdmrp.army.mil/funding/prgdefault.shtml) and the electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org). All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil).

Strategically Focused Research Network: Disparities in Cardiovascular Disease
Request for Applications Now Available Online
The full Strategically Focused Disparities Research Network Request for Applications is now available online! Prospective applicants are requested to submit a Letter of Intent for the AHA Strategically Focused Disparities Research on or before October 30, 2014. Letters of Intent will be available in Grants@Heart after September 15, 2014. View the Letter of Intent Instructions for more details. While a Letter of Intent is not required in order to submit a subsequent full application and does not enter into the review of said subsequent application; the information provided in a Letter of Intent allows AHA staff to estimate the potential peer review workload and to avoid potential conflicts of interest in the peer review process. It also allows AHA to provide potential applicants with updated information about the application process if necessary.

CVGPS Grand Challenge Award Letter of Intent Due Oct. 1!
The full application will be available on October 6, 2014 and will have a deadline of December 2, 2014. This is a modification of the timeline previously announced in the Request for Applications.

ADVANCE: Increasing the Participation and Advance- ment of Women in Academic Science and Engineering Careers (ADVANCE)
Solicitation: NSF 14-573
Due Date: October 03, 2014
Institutional Limit: 1
Limit Summary:
One proposal per eligible organization for Institutional Transformation and Institutional Transformation Catalyst Awards.
No limit for PLAN IHE and PLAN D proposals.

Research Training Groups in the Mathematical Sciences (RTG)

Full Proposal Deadline Date: October 14, 2014
Program Guidelines: NSF 14-585

The long-range goal of the Research Training Groups in the Mathematical Sciences (RTG) program is to strengthen the nation's scientific competitiveness by increasing the number of well-prepared U.S. citizens, nationals, and permanent residents who pursue careers in the mathematical sciences. The RTG program supports efforts to improve research training by involving undergraduate students, graduate students, postdoctoral associates, and faculty members in structured research groups centered ...

This is an NSF Upcoming Due Dates item.

Mathematical Sciences Postdoctoral Research Fellowships (MSPRF)

Full Proposal Deadline Date: October 15, 2014
Program Guidelines: NSF 14-582

The purpose of the Mathematical Sciences Postdoctoral Research Fellowships (MSPRF) is to support future leaders in mathematics and statistics by facilitating their participation in postdoctoral research environments that will have maximal impact on their future scientific development. There are two options for awardees: Research Fellowship and Research Instructorship. Awards will support research in areas of mathematics and statistics, including applications to other disciplines.

This is an NSF Upcoming Due Dates item.

Geospace Environment Modeling (GEM)

Full Proposal Deadline Date: October 15, 2014
Program Guidelines: NSF 10-510

GEM is a broad-based, community-initiated research program on the physics of the Earth's magnetosphere and the coupling of the magnetosphere to the atmosphere and to the solar wind. The purpose of the GEM program is to support basic research into the dynamical and structural properties of geospace, leading to the construction of a global Geospace General Circulation Model (GGCM) with predictive capability. The exact structure of a GGCM may be modular or may consist of a ...

This is an NSF Upcoming Due Dates item.

Paleo Perspectives on Climate Change (P2C2)

Full Proposal Deadline Date: October 15, 2014
Program Guidelines: NSF 13-576

The goal of research funded under the interdisciplinary P2C2 solicitation is to utilize key geological, chemical, atmospheric (gas in ice cores), and biological records of climate system variability to provide insights into the mechanisms and rate of change that characterized Earth's past climate variability, the sensitivity of Earth's climate system to changes in forcing, and the response of key components of the Earth system to these changes. Important scientific objectives of ...

This is an NSF Upcoming Due Dates item.
**Discovery Research K-12 (DRK-12)**

Full Proposal Deadline Date: October 16, 2014

Program Guidelines: NSF 13-601

The Discovery Research K-12 program (DRK-12) seeks to significantly enhance the learning and teaching of science, technology, engineering and mathematics (STEM) by preK-12 students and teachers, through research and development of innovative resources, models and tools (RMTs). Projects in the DRK-12 program build on fundamental research in STEM education and prior research and development efforts that provide theoretical and empirical justification for proposed projects. Teachers and ...

**Frequently Asked Questions (FAQ) for Science and Technology Centers (STC): Integrative Partnerships Program**

Document Number: nsf14119

This is an NSF Program Announcements and Information item.

**Advancing Digitization of Biodiversity Collections (ADBC)**

Full Proposal Deadline Date: October 17, 2014  
Third Friday in October

Program Guidelines: NSF 13-569

This program seeks to enhance and expand the national resource of digital data documenting existing vouchered biological and paleontological collections and to advance scientific knowledge by improving access to digitized information (including images) residing in vouchered scientific collections across the United States. The information associated with various collections of organisms, such as geographic, paleogeographic and stratigraphic distribution, environmental habitat data, phenology, ...  

This is an NSF Upcoming Due Dates item.

**Louis Stokes Alliances for Minority Participation (LSAMP)**

Full Proposal Deadline Date: October 17, 2014  
LSAMP Alliance Proposals (Inclues Bridge to the Baccalaureate)

Program Guidelines: NSF 12-564

The LSAMP program assists universities and colleges in diversifying the STEM workforce through their efforts at significantly increasing the numbers of students successfully completing high quality degree programs in science, technology, engineering and mathematics (STEM) disciplines. Particular emphasis is placed on transforming STEM education through innovative recruitment and retention strategies and experiences in support of groups ...
